IT is difficult to conceive of anything more beautiful than a bed of brilliant colored Tulips. Their colorings add more to the beauty of a yard, with little or no cultivation or care, than any other known bulb and we are sure nothing will give you more pleasure or enjoyment than a bed of these handsome blooming flowers. The culture of Tulips does not vary from that of Hyacinths. They are very hardy, and require very little care or protection from the extreme cold weather. The favorite house bulbs are of the single variety. They bloom readily and during the mid-winter months are a constant source of joy and pleasure in the home.

PLEASE NOTE.

The single early varieties commence flowering from 10 days to two weeks previous to other varieties of Tulips.

Those blooming earliest are marked A. Next B, and so on in their order. The number denotes the height of growth in inches, when planted outdoors.

CHINESE SACRED LILIES.

These may be grown in pots, but are most successful when cultivated in water, each bulb producing from four to eight flower spikes bearing clusters of waxy white blossoms with a yellow center of most delicious fragrance, plant in glass bowls with sufficient pebbles to hold the bulbs in place. Keep bowl partly filled with water. Set away in a cool dark place of 36 to 40 degrees and keep there until roots are formed, when they may be removed to the light and warmer temperature. Do not allow cold draughts to strike the plants, as this blasts the blooms. If kept cool flowers will last twice as long as under ordinary conditions.

Price 10c each. 2 for 15c. 75c per dozen.

If ordered by mail add 5c each, or 30 cents per dozen, for postage.

UNDoubtedly the finest flower for growing in water, sand, etc., as well as one of the most beautiful plants for outdoor culture. They are very hardy, and when once established, they do not need to be reset for several years. They thrive in almost any kind of soil, and a few of them planted in a bowl will give cheer to any home during the long dreary winter months. They succeed best in a cool temperature.

FREESIA.

A BEAUTIFUL winter flowering bud for house culture, blooming freely during the winter and spring months. It is indeed a favorite wherever planted. By planting 4 to 6 bulbs to a pot and leaving out doors, covering with a few leaves, straw, etc., until about the first of November, then bringing into the house, placing in the sunlight in a temperature of about 50 to 60 degrees you can have a beautiful display of flowers that must be seen to be appreciated. We offer you the choicest of all the Freesia Family, viz: *Refracta Alba*. Note the description.

REFRACTA ALBA.—The flowers are pure white with a yellow blotched throat and very fragrant.

CROCUS.

ONE of the earliest spring blooming flowers—producing its beautiful, ever welcome buds almost ere the snow has disappeared, blooming as it does, at a season when the ground is bare of foliage it is a most welcome visitor. The Crocus are a success when grown in pots, but in order to obtain the best effect they should be massed in large beds, say from 100 to 500 bulbs to the bed; from such a bed an effect can be produced that when once seen will never be forgotten. Another very desirable effect is produced by setting the bulbs here and there over the lawn. In this way they add a beauty of splendor to the lawn and the home surroundings. For pot culture, plant from one-half to one dozen bulbs in a pot of ordinary soil, or in small glasses, crockery, etc., keep cool, give plenty of water and fresh air. They may also be grown in water and sand on plates, in fact they are easily forced in either case, and indoors they bloom about a month earlier than outdoors. This season we have an exceptionally fine stock of these hardy blooming favorites and we are sure you would never regret giving liberal space in your yard to these ever favorite, early blooming flowers.

LILIES

LILY—LONGIFLORUM MULTIFLORUM (Easter Lily.)

after the plants have commenced rapid growth. While in bloom keep the plants in a cool, dry, airy situation, in order to make the flowers last longer.

OUTDOOR CULTURE.

The bulbs should be planted about the first of October, if possible, or as late as the soil can be worked. If planted in the spring they should be put in the ground as soon as the frost disappears. In climates where the frost does not interfere, plant from October to March. Care should be taken that they have proper drainage; no water should be allowed to stand around the bulb. The soil should be well enriched with sheep manure and sand. Set the bulbs from 4 to 6 inches deep, surrounding them with sand, in order to prevent any manure coming in contact with the bulb. During the winter months the beds should be covered with a thin layer of straw manure. By following the above directions success is sure to be yours.

LILY—LONGIFLORUM MULTIFLORUM (Easter Lily).

Words cannot begin to describe the supremacy of the Easter Lily over all others. For splendor, purity and gracefulness it stands in a class by itself. The flower is of a beautiful snow-white color, and is a house plant par excellence. The original Longiflorum Multiflorum strain is noted for its superior beauty, its fragrance of odor and its prolific bearing qualities. The bulbs should

THE Lily, with its Beauty and Faultless Purity, undoubtedly surpasses any other known flower. For ages they have been referred to as the "most beautiful of all flowers." They are very fragrant, as well as very lasting. In fact their delicious odor makes them the ideal of all pot flowers for table decoration, bouquets, vases, out door planting, etc.

INDOOR CULTURE.

For forcing in pots plant as early as possible, from September to November. Plant them in at least 6-inch pots; use a nice, rich, loamy soil, partially composed of pulverized sheep manure and sand. This composition should just cover the bulbs, and should be made firm by pressing it closely about them. Place the pots in a cold frame or sheltered place, covering the tops with soil. Let them remain so until cold weather. Thus the pots will become filled with roots after which remove to a warm room. The temperature should be kept at about 60 degrees until the bud appears, after which the heat may be increased. Weak manure water is highly recommended two or three times a week

be planted in September, thus providing you with beautiful Lilies for Christmas and the holidays. A second crop of Easter Lilies may be had from the same bulbs, by starting them into growth again same as before, after leaving the bulbs rest a short time after the first crop.

CALLA LILY.

—CALLA LILIES.—

WHITE CALLA LILY.

WE have many letters from our customers saying they never saw such fine lilies as grown from our select strain of bulbs. This variety of lily is very easily grown and produces fine large white blooms in abundance. The White Calla or Lily of the Nile, is a well-known plant of easy culture, and in winter is one of our best window plants. To aid profuse blooming keep them dormant from the middle of June until the last of August, repot in good rich soil, using 6 to 8-inch pot, give water, light and heat in abundance, and the result will be most satisfactory. Large size Bulbs, each, 20c., Doz., \$2.00. Medium size Bulbs, each, 15c., Doz., \$1.50. Postage, 4c. each.

The flowers grow fully a foot in height, almost coal black and green underneath. Large Bulbs, price, each 15c., 4 for 50c; postage 2c. each,

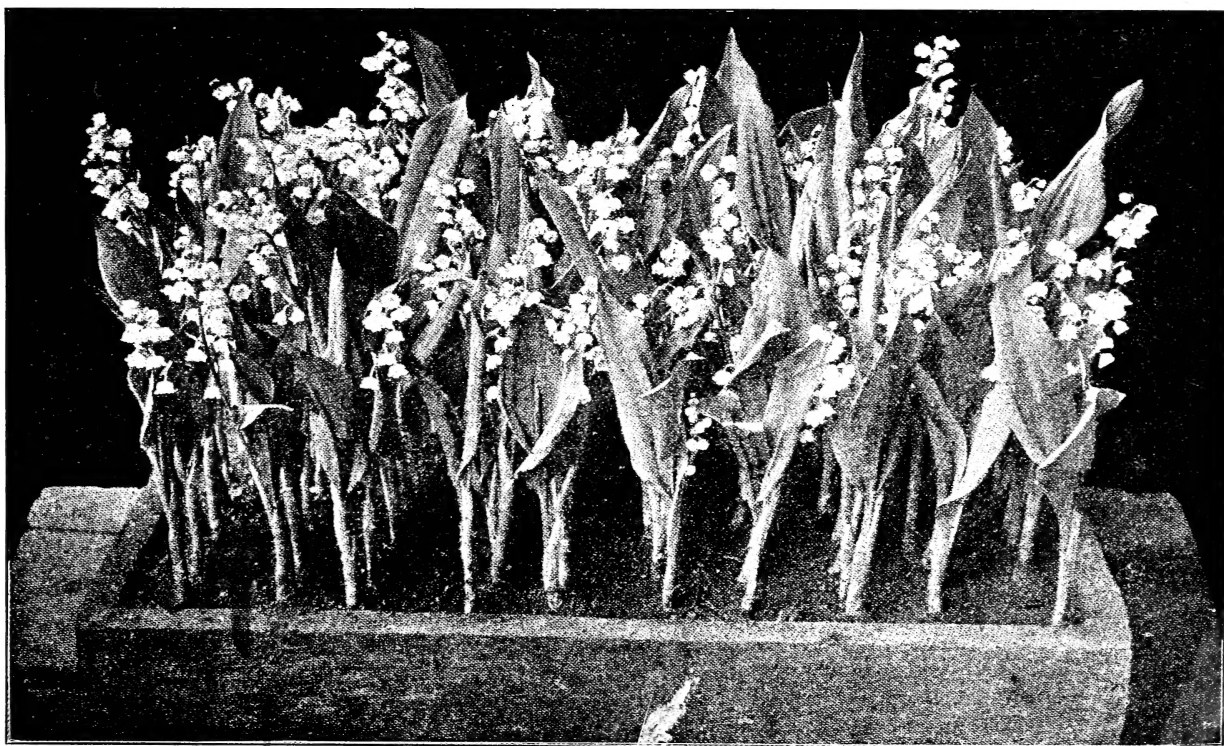

SPOTTED CALLA.

Foliage dark green, beautifully spotted white. Flowers pure white. Price, each 15c., 4 for 50c; postage 2c. each.

LILY OF THE VALLEY.

ONE of the most charming of spring-flowering plants, bearing slender stems with tiny bells; deliciously fragrant. They are largely used for forcing in winter and spring, and can readily be flowered in the house. The pips or crowns are received each year from Germany during November, and can be planted from now until spring. The simplest method for indoor culture is to place a bundle of 25 pips in a 7 or 8-inch pot, filling it up with sand, moss or light soil, allowing the points of the pips to be about an inch above the surface. They should then be placed out of doors in a shaded place and subjected to frost, which materially helps in their quick flowering. The pots can be brought indoors as wanted, and if frozen should be thawed out slowly, after which they may be put in a shaded place in a temperature of about 70 degrees, and when the spikes are 3 or 4 inches high they may be brought to where they are to perfect their flowers. By having a number of pots and bringing in at intervals, a continuous display can be had throughout the winter and spring months.

CYCLAMEN.

Undoubtedly one of the finest pot plants in existence. The various species produce flowers varying from deep red to pure white. They produce large gorgeous flowers, and are always one of the most attractive growers in the green house or conservatory. No collection is complete without a few plants of this famous flower. (See Cut)

Cyclamen Gigantum.—Large profuse bloomer.

" **Album.**—Very large profuse bloomer. White.

" **Giant Rubrum.**—Beautiful Reddish tint.

" **Giant Roseum.**—Gorgeous beyond description. Pink color. Price, each, 20c; 3 for 50c.

" **Mixed.**—Price 20c each, 3 for 40c.

AMARYLLIS.

One of the most beautiful of indoor growing plants, extremely ornamental and fragrant. Should be planted in well prepared soil, consisting of a good loam, with one-fourth part of pulverized manure, together with some sand. They require plenty of sunshine and should be kept well watered during the growing season.

JOHNSONII.—A beautiful, large, crimson, striped with white, flower of superior beauty, very popular. Flowers are of large drooping bell shape. Each, 40c. 3 for \$1.00. Add 5c each for postage.

ANEMONE, OR WINDFLOWER.

Should be planted in autumn in rich soil and well sheltered for early spring and summer flowering. For pot or house flowers they are unsurpassed.

LARGE DOUBLE MIXED—Producing various shades and coloring. Per dozen, 20c. Add 5c per dozen for postage.

RANUNCULUS.

Among dwarf flowers these are unrivaled for lovely form and bright and attractive colors, ranging through gorgeous shades of white, crimson, yellow, purple, black, many of them being beautifully marked with other shades. They flower profusely in pots in the house during the winter or if grown in frames in the spring. They are most suitable for bordering and natural woodland effects.

Double Persian.—Rich variety of colors, producing rose-shaped flowers. Price, 3 for 10c; per doz 20c.

Double French.—Mammoth sized. Remarkably vigorous, loosely double flowers. Price, 3 for 10c; per doz. 20c.

SPRING SNOWFLAKE,

OR LEUCOJUM VERNUM.

It is one of our earliest spring flowers, with white snowdrop blossoms distinctly tipped with green, handsome in outline and prized for bouquets. They should be grown in quantities in the borders or in spots on the edges of shrubbery, where they are beautifully effective, and when established produce enormous quantities of flowers. They can also be slowly forced in pots for winter bloom. Price, 3 for 10c; per doz. 25c.

SCILLA.

This beautiful pot plant will thrive in any garden soil that is at all nourishable. By planting outside in the fall they flower the following spring. In the house they bloom in February. Plant 6 to 12 bulbs to a pot according to size. They are very hardy and profuse bloomers. The flowers are charming and fragrant.

Pemriana.—Hardy, strong and fragrant. Each 15c; per doz. \$1.25.

Amoena.—Beautiful for delicacy of coloring. Price 3 or 10c; per doz. 25c.

TUBE-ROSES.

These beautiful flowers need no introduction as they rank in popularity with Asters, Pansies and Nasturtiums, and are even easier to raise. Their flower spikes last longer after cutting than Gladioli, Dahlias or any other bulbous plants. In delightful fragrance they rival the Rose and Violet. This is the best double variety. They ought to be in your garden if any flowers are. They are also excellent for pot planting.

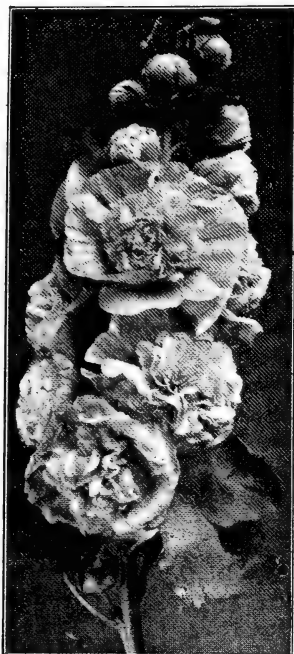

Double Dwarf Pearl. Large, hardy, fragrant and beautiful beyond description. Price, 3 for 10c; per doz. 25c.

HOLLYHOCKS.

HOLLYHOCKS.

Hollyhocks are undoubtedly among the most ornamental and handsome garden flowers, with their tall spikes, dotted all the way up with large double flowers, handsome as camellias and of the most lovely shades of color. They fit in the smallest garden and can be used with great effect in all kinds of borders, shrubbery, against the house, or along the fence. No matter where they are planted, they are always handsome, pleasing and ornamental. A slight protection during the winter will be beneficial.

We offer the following colors: Double white, Double yellow, Double pink, and Double red. Price 75c each. Per dozen \$2.50, add 10c each for Postage.

SNOWDROPS.

There is nothing more beautiful than a sheet of the snowy, graceful blossoms of the Snowdrop. Beds and effects of surpassing beauty may be arranged with Snowdrops in the center. The Snowdrop and the Crocus, when planted in alternate circles, are very effective, and follow each other so closely that no gap is left in the succession. In beds of Tulips and Hyacinths, Snowdrops are very effective between the lines; the flower while these bulbs are just moving the surface, and when the flowers are over there remains an elegant groundwork of green foliage. Used as a permanent edging, and in masses on the edges of lawns, nestling in the grass, they look charming.

Single Snowdrops 5 for 10c; per doz., 20c. Double Snowdrops 3 for 10c; per doz. 35c

TRITOMA PFITZERII.

"RED HOT POKER PLANT," or "FLAME FLOWER."

This new variety is a marvel. It is a very free blooming sort, flowering continuously throughout the season. The flowers are large spikes of brilliant flame color, with long stalks gracefully poised above the rich green foliage. A bed of this in bloom is a grand sight; a border of it around Cannas is admirable; scattered throughout the flower garden it adds grace and brightness and is in its glory when nearly all other flowers are seared with early frosts. The roots should be dug up before hard frost and kept in sand in the cellar during winter. Price, 15c. each, \$1.50 per doz.

CHILDANTHUS FRAGRANS.

One of the finest and most showy plants known, it remains bright and beautiful when most of the other flowers have died away. It is highly esteemed for bouquets, and is at all times during its season the ideal of the conservatory. Price, each 5c; per doz. 50c.

ST. LOUIS SEED CO.'S DISPLAY COLLECTION OF TULIPS.

Nearly everybody likes Tulips. They produce a brilliant effect that cannot be produced with any other plant. The culture is the same as for the Hyacinth, only, being perfectly hardy, they do not require to be covered so heavily through the winter, but merely enough to keep the frost from throwing them out of place. When through flowering, the bulbs may be lifted and dried off, and used another year, or they may be left in the ground and the beds filled in the same way as for Hyacinth beds.

The above bed can be made up with either of the following "Display" Collections at such a trifling cost that it is absurd to think

of going without a beautiful bed of flowers in your yard this coming spring.

"Display" Collection No. 1, consisting of 78 Arthus Tulips, 78 La Reine Tulips, \$2.75.

"Display" Collection No. 2, consisting of 60 Arthus Tulips, 60 La Reine Tulips, 86 Chrysolore Tulips, \$2.90.

"Display" Collection No. 3, consisting of 150 Fancy Rex Ruburnum Tulips, making a beautiful solid color bed, only \$3.00.

"Display" Collection No. 4, 150 beautiful mixed single Tulips, only \$1.75.

HARDY SHRUBS AND CLIMBERS.

We are Headquarters for everything in the Shrubbery line. See our Big Catalog for full description of anything you may desire.

CALIFORNIA PRIVET.

Of all the shrubs which have been tried for hedging, none can compare with this. Of easy growth and splendid foliage, free from insects. Its inexpensiveness alone would give it first place for the purpose. It is now planted by the million annually. It is of free growth, and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. Price: By express, Size 12 to 18 inches, 10 for 70c; 25 for \$1.25; 100 for \$3.50. Size 18 to 24 inches, 10 for \$1.00; 25 for \$1.75 100 for \$5.00.

SPIRAEA.

VAN HOUTTE—The grandest of all the Spiraeas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of twenty to thirty flat white florets make up the racemes, and these clusters are set close along the drooping stem. Perfectly hardy and an early bloomer. Two-year-old clump about 24 inches high. By express, each 30c; 10 for \$2.00.

CLEMATIS.

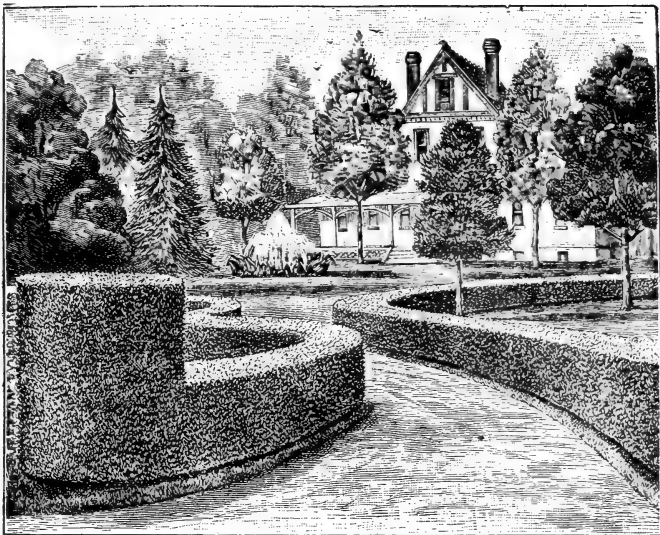

One of the most beautiful and showy climbers we have. The flowers are of enormous size, many growing from 5 to 7 inches in diameter. Owing to their very hardy nature, they are easily a favorite, requiring very little care. For pillars, trellises and for running over rockwork or trees they cannot be surpassed. The following varieties, which we offer you, are the best in their respective class.

PANICULATA—One of the best varieties. The beauty and usefulness of this hardy, fragrant climber cannot be equaled. We sell more roots of this than of any other hardy climber. Extra large roots, three years old, 30c; postpaid.

JACKMANNII—The large, deep purple variety. Extra large roots, three years old, 50c; postpaid.

HENRYI—Color, white, Size of the Jackmannii. Extra large roots, three years old, 50c; postpaid.

MME. EDOUARD ANDRE—A beautiful dark pink, size of Jackmannii. Extra large roots, three years old, 60c; each, postpaid.

To Have a Lawn That Is a Lawn it Must be Sown With "Havalawn."

HAVE A LAWN

—AND YOU'LL HAVE A HOME.—

"HAVALAWN," THE ONLY INOCULATED GRASS SEED MIXTURE EVER DISCOVERED. Praised and Endorsed by Homelovers Everywhere. **AWARDED THE GREAT WORLD'S FAIR MEDAL 1904.**

HAVALAWN (name registered in U. S. Patent Office) is procurable only from us. Every package bears our green label. No other is genuine, and we will prosecute all infringements.

Nothing adds more to the appearance of one's home than a nice, green, velvety, lawn, whether living in the city or country. A dollar expended in our Famous HAVALAWN Grass Mixture will add more than a twenty-five dollar expenditure in any other way.

HAVALAWN mixture will insure a beautiful, compact evergreen sod on any lawn where the essential requirements of grass culture have been complied with. Its component parts are the grasses particularly adapted to lawns and door yards. It is composed of the best thriving varieties, together with the best known creeping or sod-forming sorts. Timothy and orchard grass are wholly excluded on account of their coarse leaves and only finest sorts are used. Full provision is made for a succession of growth, so that there shall be no break in the richness of the verdure from spring until autumn, and experience proves that **Havalawn** Grass Mixture is now perfect. Nothing better can be purchased on the American market, no matter what claims may be advanced by other seedsmen.

When and What to Sow on Your Lawn.—To start a new lawn, prepare your ground, and see, too, that it is loose and pulverized very fine with a hand rake; then sow the seed. It is best to always cross-sow, as this enables you to get it on more evenly; then rake in and roll it good.

Price of HAVALAWN Grass Mixture.

Sows about (square feet)	1 lb.	2 lbs.	3 lbs.	7 lbs.	14 lbs.
Havalawn.	300	600	900	(1/2 bu.)	(1 bu.)
	\$.25	\$.50	\$.75	\$ 1.75	\$ 3.00

"EVERGREEN" LAWN SEED.—We especially recommend this lawn seed for use by persons who desire a coarse grass. Sow, for 1 acre, 40 to 50 lbs.; for 1/4 acre, 2 bu. We advise heavy sowing for a new lawn. For renewing old lawns, use 1/4 or 1/2 of these amounts, according to the money you care to spend.

Price.	\$.20	\$.35	\$.50	\$ 1.00	\$ 2.00

Extra Fancy Kentucky Blue Grass Seed. (Price subject to change.) It is most valuable as a lawn grass, but we advise sowing a lawn-grass mixture, such as our **Havalawn**, because it contains some Kentucky Blue Grass, White Clover and other lawn grasses in proper proportions. Sow in October or early spring. 20c per lb.; 7 lbs, \$1.10; 14 lbs, (1 bu.) \$2.00.

USE SHEEP MANURE ON YOUR LAWN

It will produce a lawn when everything else fails. Our sheep manure is treated by a secret process that adds vitality to the grass roots that cannot be secured otherwise. Price, 25 lbs, 75c; 100 lbs. \$2.00.

St. L. S. Co's Shady Lawn Mixture.—This mixture is intended for all situations that are in partial or complete shade, and will be found invaluable on grounds lying under the shadows of trees or buildings. This mixture is a combination of fine dwarf-growing evergreen varieties of grass, which grow naturally in shaded spots. 25c per lb.; per bu. (14 lbs.) \$3.00.

White Clover. (Especially Adapted for Lawns.) A small, creeping perennial variety. Flourishes in a variety of soils, but prefers moist ground. It is effective in preventing the soil from being washed by heavy rains. Price, 1/4 lb. 10c; 1/2 lb. 20c; 1 lb. 35c.

NICHOL'S "HUNDRED BUSHEL" WHEAT

OUR GREAT WHEAT OFFERING FOR 1907.

The Finest as well as the Largest and Earliest Yielding Fall Wheat ever Discovered.

Our new wheat offering for 1907 is without a doubt the Greatest, the Grandest and Most Perfect Wheat ever bred. For years we have been trying to produce a wheat that would yield the Century Mark. Thanks to Our Mr. Nichol, the Originator we have it, and now offer to our customers for the first time, the finest smooth wheat in the world.

READ DESCRIPTION: Nichol's "Hundred Bushel" Wheat is the Ideal Fall Wheat for you to sow this season Mr. Farmer. When we originated and offered our other two famous varieties, Wall Street Favorite and New Prosperity a couple of years ago with their yields of 8½ and 79 bushels respectively we thought we had reached the high record yielding mark, but Our New "Hundred Bushel" Wheat, convinces us that we were far from right. But we need not say more. Our thousands of customers who have tried our new wheat introductions will vouch for their mammoth yielding powers. Nichol's "Hundred Bushel" Wheat is of the brightest hue, it's straw being long and stiff, the heads are of an unusually large size and the grains are perfect in every respect, it is one of the greatest drought resisting wheats we have ever seen, being very deep rooted and free from rust, insects, etc., In fact it is the wheat that will make dollars for any man. We wish we had space to illustrate and show the comparisons between this wonderful new variety and the common sorts, which you have been growing year in and year out, but better still a trial will convince you more than anything we might say, but our only advice now is to order early, as our supply of this wonderful new wheat is limited and first orders come first served. If you desire other information write; us we will gladly give it.

Price: per peck 75c, ½ bu. \$1.25, 1 bu. \$2.00, 10 bu. at \$1.90 per bu. BAGS FREE.

MR. WHEAT RAISER: STOP AND FIGURE.

You have read the above, you have now the opportunity to secure Seed Wheat that will yield over 100 bushels per acre, are you going to hesitate putting in a crop of this immense yielding wheat? No, we know you will not. No industrious farmer will hesitate one moment. Just imagine if you raise a crop of Nichol's "Hundred Bushel" Wheat this season, the amount of money you will be ahead. Remember, it is not acclimated to any special wheat regions as a great many other varieties are, but instead, it has its same yielding powers regardless of the locality. We urge you to order a supply at once; our stock is limited. We know we cannot supply all the demand, but we want our customers who receive this Catalog to give it a trial.

PEDIGREE FULTZ (Smooth).

The famous Standard variety; it is of extreme hardness, perfectly smooth and an immense yielding sort. Looked upon by millers and grain men everywhere as the favorite "standby." Its yielding power throughout the North and Northwest is superior to any of the other old time varieties. Our customers tell us that the main trouble they have in securing this variety from other houses is the fact that it is mixed with common sorts. Our stock is "Pure and Sure" and true to name, being of uniform size and shape throughout.

Price, peck, 60c; ½ bushel, \$1.00; bushel, \$1.75; 10 bushel at \$1.60 per bushel.

"Hurrah for NICHOL'S WALL STREET FAVORITE!
83½ Bushels grown on the same land that heretofore
yielded 25 to 30 Can you beat it? If not, I will beat it
next season. I am going to sow new ground and I am
positive I will pass the One Hundred Bushel mark.
Gentlemen, your wheat is a wonder." Geo. J. Bidwell,
Dickey County, North Dakota.

Two years ago we introduced this remarkable new wheat and it at once fell in popular demand with our thousands of customers. Enthusiastic letters are coming in daily, every one praising it as the supreme rival over all other varieties. If you have not already sown it, give it a trial. It will put dollars into your pockets. It is a remarkable hard wheat, free from rust and ere another season we predict that our wonderful new varieties will become the standards of the Great Wheat Belt.

NICHOL'S WALL STREET FAVORITE is a beautiful long straw wheat with big solid heads in abundance, in fact no other Fall Wheat can compare with it except our **"Hundred Bushel"** variety on the opposite page, it is absolutely rust proof, also insect proof.

"WALL STREET FAVORITE is the most wonderful yielding wheat I ever saw. It is firm, strong and an ideal market variety. No other kind for me hereafter."
PIKE CO., MO. ROBERT STEIRLIN.

We urge you to send us your order to-day, do not delay. As this Catalogue goes to press we are booking hundreds of orders from neighbors of customers who reaped the reward last season. Need we say more? It is the wheat of the nation. Be wise. Order to-day.

Price, Peck, 65c; ½ Bu., \$1.15; Bu. \$2.00; 10 Bu. at \$1.90 per Bu.

NICHOL'S NEW PROSPERITY WHEAT.
The Greatest Second Early Fall Wheat Ever Discovered.

A Heavy Yielder—Record 79 Bu. per Acre.

A close second to our famous Wall Street Favorite with the exception that it is about 5 to 6 days later, an abundant yielder, a sure cropper, and an ideal variety to plant with Wall Street Favorite, for the reason that by the time you have Wall Street Favorite cut NEW PROSPERITY is ready to cut. We could write pages of the good qualities of this new smooth wheat, but for lack of space we must omit it. As a yielding variety it is a close second to Wall Street Favorite, having yielded 79 bu. per acre. This new wheat we concede superior to all other sorts, except our Wall St. Favorite and "Hundred Bushel" varieties.

Price, peck, 65c; ½ bu., \$1.15; bu., \$2; 10 bu. at \$1.90 per bu.

FULCASTER (Bearded.)

As a big crop producer it ranks high, owing to its bearded nature. It is a very hardy variety. In fact, it is an ideal wheat in every respect. **Price, peck, 60c; ½ bu., \$1.00; bu. \$1.80; 10 bu. at \$1.75 per bu.**

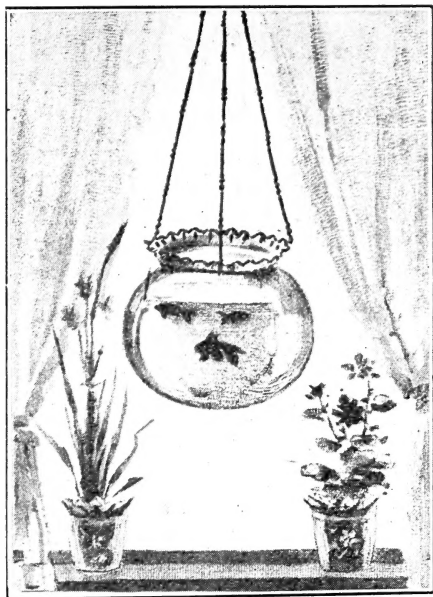

MACARONI SPRING WHEAT.

Reports of enormous yields come to us from all quarters. It is heartily endorsed by the United States Department of Agriculture; it is a great drought resister, and, in fact, one of the leaders in the great Wheat Belt region. We carry an excellent stock of the seed. **Price, Peck 75c; ½ bu., \$1.25; bu., \$2.00; 10 bu. at \$1.90 per bu.**

DECORATE YOUR HOME.

No other decoration adds to the charm of a library, parlor or den than a handsome bowl of Gold Fish. In it we have animal life in its quietest form.

*"Pretty little Gold Fish, swimming from day to day,
In their little bowl of water, I wonder if it is play."*

Fish are the greatest puzzle of any pets that we have, no one has as yet ever been able to fully determine the exact nature of these little silent creatures. It matters not at what hour of the day or night, they may be seen silently darting through the water here and there with seemingly never a thought of the outside world. While fish are unable to demonstrate their appreciation of their keeper's kindness, nevertheless one becomes so attached to them that it is almost impossible to part with them when once they have been displayed in your home. We handle thousands of fancy imported specimens and we can supply you at all times with a collection of fish, such as your heart desires.

FANCY AQUARIA FISH.

WE are headquarters for these little silent household pets, being breeders and importers of every known variety. We can furnish you with an assortment for your aquarium that we dare say would be hard to duplicate. Fish require the least attention of all other pets and we are sure after you have once had a nice little aquarium in your home you would not part with it at any cost. Fish become very tame and always come to the surface of the water when being fed. We are making daily shipments of these tiny creatures to all parts of the United States and we continually receive words of praise from our enthusiastic customers everywhere commending us upon the beautiful species that we ship them. Each fish that we send out is of the hardest type and we are sure, after seeing some of our beautiful stock, you will never regret having ordered from us. Your orders will be filled same day as received. Ask for a copy of our Bird and Fish Catalog, it describes and illustrates all popular Gold and Silver Fish. Mailed **FREE** to any address.

NOTE.—We can supply you with anything pertaining to the Aquarium.

Read the Following Kind Words From Our Customers.

"The fish and supplies arrived O. K. after their long journey. We want to thank you for the beautiful specimens which you sent us, as they are by far the prettiest we have ever seen. You are going to receive many orders from this place, as every one who sees them asks us where we obtained such lovely fish."

JESSIE D. BOWEN.

Cherryvale, Kans.

"The Gold Fish that I purchased from you some time ago are as pretty and lively as can be. They add so much to the decoration of the parlor that we would not be without them."

Miss Bernice Winslow
Ottumwa, Ia.

"The beautiful Gold Fish and Aquarium arrived last Saturday on time. Being pleased is placing our feelings mildly; we were simply delighted. Both my husband and myself think the collection the finest we ever saw."

MRS. FRANK MATTHEWSON.

Minneapolis, Minn.

"I never had any idea there were such beautiful fish in existence as the ones received from you yesterday. I certainly congratulate you upon your handsome strains, and ask you to kindly send six like mine to my mother, the address of which I enclose, together with remittance."

MRS. J. B. FOSDICK.

Burlington, Ia.

"The beautiful Fan Tail Fish arrived to-day. They are such dear little things. I only regret I did not know of your house long ago."

MRS. BEATRICE KINSLEY.
Key West, Fla.

"I have been the means of 18 orders going to your house for Fancy Fish. My friends just went wild with enthusiasm after they saw my handsome Fish purchased from you."

UP.

We ship more Parrots, Canaries and Fancy Gold Fish in one week than most other bird houses ship in a whole season. **If you are interested in purchasing a Household Pet of any description it will pay you to get our Bird and Fish Catalogue to-day—It's Free.** The Parrots that make good talkers are the kind that are hand raised and hand fed; the breeders when raising are continually talking to them, hence their "mockery." Parrots that are trapped are wild and seldom become tame, much less learn to talk. Our Parrots are raised in captivity with tame birds and experienced breeders, being continually handled from the time they are hatched until they are shipped, hence the result: talking is their nature, tameness is their nature. We now have the reputation of handling more Parrots than any other house; in fact, during the Parrot season we usually ship several hundred every day, each one going to a different village or city, until today we are known throughout the entire land as "America's Greatest Bird and Fish Emporium. Write for our Bird and Fish Catalogue today; it's free.
